

FIRST CONDITIONAL

A2 | Teens / Adults | Grammar Question Practice | 20-30 minutes

Talk about possible future situations and their results.

1. GET STARTED

Take turns asking and answering. Add a detail, then ask a follow-up question.

A: What shall we do on Saturday?

B: If it's sunny, we'll have a picnic. If it rains, we'll stay here.

A: Good plan. I'll bring some food if we go out.

2. POSSIBLE PLANS

1. What **will** you **do if it rains** this weekend?
2. If you **finish** work or school early, what **will** you **do**?
3. What **will** you **cook if** a friend **comes** for dinner?
4. If you **have** some free time tonight, how **will** you **use** it?
5. What **will** you **buy if** you **need** a quick lunch?
6. If your bus **is** late tomorrow, what **will** you **do**?

Keep talking: What if the plan changes? / What will happen then?

3. SOLVE SMALL PROBLEMS

Think of a practical result or action for each possible situation.

7. If you **lose** your keys, who **will** you **call**?
8. If your phone battery **dies**, what **will** you **do**?
9. If the cafe **is** full, where **will** you **go**?
10. If a visitor **asks** for help, how **will** you **help**?

4. MAKE A BACKUP PLAN

Plan a day out together. Decide what you'll do if it rains or a place is closed.

Agree on a main plan and two backup plans.

Example: If the museum **is** closed, we'll **visit** the market instead.

Answer help: If ... happens, I'll ... / We'll ... if ...

Remember: if + present simple; result + will: If it rains, we'll stay home.
